Note: All input paths and file names should be entered without quotation marks.

To use the program, follow these steps:

Launch the program.
From the main menu, select an option by entering its corresponding number.
Follow the prompts to enter the necessary information.
The program will perform the selected operation and return to the main menu.
To exit the program, select option 6 from the main menu.
Note: If an operation fails, an error message will be displayed. Please read the message carefully to determine the cause of the error.

Thank you for using this file management program.
